SAWA

subtle harmony

SAWA is a modern kitchen designed to seamlessly complement open living spaces. Crafted from natural and stained oak veneer with solid wood accents, this model embodies elegance and warmth. Vertical and horizontal elements conceal a subtle handle groove, lending the composition its distinctive character. Every detail is thoughtfully considered, combining technical precision with refined aesthetics.

Equipped with self-closing fittings and drawers, and offering a variety of customizable storage solutions, SAWA meets the needs of true enthusiasts of cooking and entertaining alike.

What's inside?

accessories by peka

Ergonomics, comfort and functionality are key values of modern kitchen solutions. Innovative storage systems facilitate everyday activities and provide aesthetics. Pull-out cargo, corner systems, rotating shelves, sorters and organizers allow for optimal use of space.

tall units pull-out storage systems

dispensa *arena style*

6 shelf pull-out cargo, designed for installation in high cabinets in kitchen furniture. The Dispensa is capacious and provides excellent access to stored products.

available in **antracite** for units:
300mm, 400mm, 450mm, 600mm

dispensa *fioro*

6 shelf pull-out cargo, designed for installation in high cabinets in kitchen furniture with oak baskets in the Fioro line. The original construction, made from a single metal section, makes them exceptionally stable and even over the entire surface. Equipping the baskets with decorative, oak slats makes them original and nicely harmonizes with the antracite color of the other cargo elements. Additionally, we equip them with an anti-slip mat, preventing the stored items from falling out and tipping over.

available in **antracite** for units:
300mm, 400mm, 450mm

dispensa *liro antracite*

6 shelf pull-out cargo, designed for installation in high cabinets in kitchen furniture. The shelves are made of the highest quality coated steel sheets. Thanks to their even surface, they are easy to clean. Equipping the baskets with decorative, oak strips makes them original and contrasts nicely with the antracite color of the entire cargo. Additionally, the bottom of the shelves is lined with silicone anti-slip mats, which can be easily removed for cleaning.

available in **antracite** for units:
300mm, 400mm

dispensa *liro white*

6 shelf pull-out cargo, designed for installation in high cabinets in kitchen furniture. The shelves are made of the highest quality coated steel sheets. Thanks to their even surface, they are easy to clean. Equipping the baskets with decorative, oak strips makes them original and contrasts nicely with the white color of the entire cargo. Additionally, the bottom of the shelves is lined with silicone anti-slip mats, which can be easily removed for cleaning.

available in **white** for units:
300mm, 400mm

maxi pleno *plus white*

Cargo Pleno Maxi Plus Liro equipped with an oak wooden strip at the front in white color is a pull-out pantry for a tall kitchen cabinets. It is ideal for central food storage or as a cabinet for tableware or food products. Pleno Maxi Plus Liro has a combination of shelf sizes that provides excellent use of space, easy access and an excellent overview of the stored supplies. The system has been divided into two storage zones.

available in **white** for units:
600mm, 750mm

maxi pleno *plus antracite*

Cargo Pleno Maxi Plus Liro equipped with an oak wooden strip at the front in antracite color is a pull-out pantry for a tall kitchen cabinets. It is ideal for central food storage or as a cabinet for tableware or food products. Pleno Maxi Plus Liro has a combination of shelf sizes that provides excellent use of space, easy access and an excellent overview of the stored supplies. The system has been divided into two storage zones.

available in **antracite** for units:
600mm, 750mm

under countertop units pull-out systems

snello *fioro*

Snello Fioro is an advanced system of pull-out kitchen shelves, with a quiet closing and full extension, which stands out both for its functionality and modern design. It fits perfectly into narrow cabinets often treated as unusable space, turning them into a practical place for storage. Thanks to the precise mechanism, Snello Fioro will work great in cabinets by the sink or cooker, where quick access to necessary items is important.

available in **antracite** for units:
150mm, 200mm, 300mm

pinello *liro towel*

Cargo Pinello Liro Tower is an innovative and ergonomic solution created for storing food and cleaning products. The system is designed for cabinets with a front width of 30 cm and includes a functional hanger for kitchen towels, placed on the left or right side of the frame.

available in **antracite, white and grey**
for units: **300mm**

snello *fioro towel*

Snello Fioro is a modern kitchen cargo that stands out for its exceptional functionality and refined aesthetics. This pull-out system with a lower shelf and a practical towel rail is an ideal solution for small kitchen cabinets placed in strategic places - right next to the sink or stove. It works perfectly in spaces with a width of 150 mm, maximizing their potential and eliminating waste of space.

available in **antracite** for units:
150mm

pinello *liro with oak*

with shelves finished with oak slats is a pull-out kitchen cargo that was created with maximum comfort in mind in the kitchen. Regardless of whether the system is installed on the left or right side of the user, its operation is equally convenient, and the placement of guides under the shelves makes them practically invisible, maintaining the aesthetics in the cabinet.

available in **antracite, white and grey**
for units: **150mm, 200mm, 300mm**

pinello *liro*

is an under-counter pull-out cargo with two shelves available in 3 colors. They are ideal for mounting in kitchen furniture under the counter right next to the oven, sink or cooker. Regardless of whether the system is mounted on the left or right side of the user, its operation is equally convenient, and the placement of the guides under the shelves makes them practically invisible, maintaining the aesthetics in the cabinet.

available in **antracite, white and grey**
for units: **150mm, 200mm, 300mm**

junior *arena style*

The set is available with baskets in the ARENA Style line. The baskets have a wooden bottom covered with a non-slip transparent coating, and the side walls are finished with a flat, single, one-centimeter rail. The whole is in antracite color. The frame of the system has hooks spaced every 10 cm, so we can decide at what height we will hang the baskets. The system is mounted centrally with direct access to the placed products from both sides.

available in **antracite** for units:
400mm, 450mm, 500mm, 600mm

corner units, waste segregation

le mans II *arena style*

is a furniture fitting in which two movable shelves slide out completely from the cabinet and make storing and accessing kitchen accessories simple, convenient and very ergonomic. The offered system is with baskets in the ARENA Style line - the shelf is finished with a flat single rail, the bottom of the baskets made of wood is covered with a special anti-slip coating. The LeMans II shelves have a streamlined shape, thanks to which the dishes are perfectly arranged on them.

available in **antracite and white** for doors:
400mm, 450mm, 500mm, 600mm

oeko *universal 600 2 bins*

This sorter is a set of two waste containers with a capacity of 40l and 17l inserted into a drawer and a metal extendable shelf where you can place light items on it, such as garbage bags, a broom or cloths. The larger 40l container has straight walls and a square bottom. The container's finish with a matching frame holds the bag stably, which does not slide off when throwing waste into the bin. The innovative spring clasps of the handles allow you to hang two bags in one container, making it easier to sort waste. The second smaller container with a capacity of 17l is equipped with a lid.

available for units **600mm**

magic corner

comfort fioro is an innovative storage system designed specifically for corner kitchen cabinets with a front width of 450, 500 and 600 mm. Its main purpose is to maximize the use of "blind corner" space and improve ergonomics in the kitchen. After opening the door, the user tilts the frame handle and smoothly slides the baskets out of the cabinet, easily, quickly and pleasantly.

available in **antracite and oak** for doors:
450mm, 500mm, 600mm

oeko *universal 600 3 bins*

is a set of three 17-liter bins inserted into a drawer with a lid attached to the cabinet. The bin fits kitchen drawers with a high front, with a body width of 600 mm and a minimum guide depth of 400-450 mm. The sorter has 3 17-liter containers with their own lids. The container has an integrated profile finish in the form of a "collar" at the top, in which two cutouts have been modeled for convenient carrying. The set includes a metal angle bracket that is attached to the bottom of the drawer just behind the containers. It stiffens and stabilizes the containers.

available for units **600mm**

magic corner

liro oak with decorative strips is an innovative storage system designed specifically for corner kitchen cabinets with a front width of 450, 500, 600mm. Its main purpose is to maximize the use of "blind corner" space and improve ergonomics in the kitchen. After opening the door, the user tilts the frame handle and smoothly slides the baskets out of the cabinet, easily, quickly and pleasantly.

available in **antracite, white and oak**
for doors: **450mm, 500mm, 600mm**

oeko *universal 900*

is a combination of a 40-liter container with two smaller containers with a capacity of 17l and 1.2l and 6l containers. The set is equipped with a cover mounted to the cabinet body. The basket fits kitchen drawers with a high front, with a body width of 900 mm and a minimum guide depth of 400-450 mm.

available for units **900mm**

waste segregation systems

basic standard 600 2 bins

The first 35-litre large container in anthracite color with a geometric shape and thoughtful details is based on a square base and walls in the shape of a rectangular trapezium. The container has large holes located in the side walls. The container is equipped with a serrated ring that holds garbage bags securely. The second element of the system is a 20-litre container, also in the shape of a rectangular trapezoid and with a tightly fitting lid, in grey-green colour.

available for units 600mm

basic 900 3 bins

set includes three containers 2 x 35 l+20 l with 1 lid. The containers have a slanted shape, the containers are higher at the front and slightly lower at the back, they were deliberately designed to bypass the siphon and fit in the sink cabinet. The bins are convenient to use and are suitable for sorting any type of waste.

available for units 900mm

basic standard 600 3 bins

set is a practical solution for organizing space in your cabinet. It consists of three containers with a capacity of 20 liters each, which are ideal for separating household waste. Thanks to this set, you can easily maintain order in your surroundings, and also effectively use the available space in the cabinet under the sink. Additionally, the waste bin for the drawer is equipped with an insert. The main task of the insert is to secure the drawer and keep the containers in a stable place.

available for units 600mm

pullboy vario 9xl 600

set includes 1 x 26 liter container and 1 x 11 liter container, 2 x plastic lids, 1 x plastic insert. Set in anthracite color. The containers are made of good quality, durable, odorless plastic. Solid, resistant to deformation and cracks, easy to keep clean. The containers have an integrated and convenient transport handle (the handle is lowered to one side only) and its own lid.

available for units 600mm

pullboy vario 9xl 900

Set includes 2 x 26-litre container and 1 x 11-litre container, 3 x plastic lids, 1 x plastic insert. Set in anthracite colour. The containers are made of good quality, durable, odorless plastic. Solid, resistant to deformation and cracks, easy to keep clean. The containers have an integrated transport handle and their own lid, which will perfectly stop escaping odours (the handle is lowered to one side only). The tray inserted into the bottom of the drawer under the containers, has appropriate profiles dedicated keeping the containers stable in place,

available for units 900mm

classico cutlery tray

Drawer insert made of very good quality, durable plastic, odorless, 2 mm thick. Solid, resistant to deformation and cracks. Light and easy to clean, the smooth surface of the insert does not "accept dirt", there are no streaks or scratches on it. This practical drawer insert will allow you to keep order and quickly put washed cutlery in the right place.

available for units 400, 450, 500, 600, 800, 900, 1000mm

finish: white, grey, anthracite

waste bin 35l

large 35 litre waste bin, ideal for under-sink cabinets. Container dimensions, at the base: 340 mm x 340 mm, height of the upper side: 420 mm, height of the lower side 345 mm. Ideal for plastic, glass, paper, metal and bio-waste. Resistant to damage and easy to clean.

kristall cutlery tray

An insert for cutlery and kitchen accessories in black made of very good quality, durable plastic, odorless, 2 mm thick. Solid, resistant to deformation and cracks. Light and easy to clean, the smooth surface of the insert does not "accept dirt", there are no streaks or scratches on it. This practical drawer insert will allow you to keep order and quickly put washed cutlery in the right place.

available for units 400, 450, 500, 600, 800, 900, 1000mm

finish: black

basic 800 3 bins

set includes three containers 35 l+2x20 l with 1 lid. The containers have a slanted shape, the containers are higher at the front and slightly lower at the back, they were deliberately designed to bypass the siphon and fit in the sink cabinet. The bins are convenient to use and are suitable for sorting any type of waste.

available for units 800mm

pullboy vario 9xl 800

set includes 1 x 26-litre container and 2 x 11-litre container, 3 x plastic lids, 1 x plastic insert. Set in anthracite colour. The containers are made of good quality, durable, odorless plastic. Solid, resistant to deformation and cracks, easy to keep clean. The containers have an integrated transport handle and their own lid, which will perfectly stop escaping odours (the handle is lowered to one side only). The tray inserted into the bottom of the drawer under the containers, has appropriate profiles dedicated keeping the containers stable in place,

available for units 800mm

waste bin 40l

very large waste bin with a capacity of 40 l with two handles for kitchen waste. The container will work great as a bin for large-sized waste, e.g. plastic packaging, beverage cans, paper, glass, but it will also be perfect for kitchen bio-waste.

mat fibre soft grip

anti-slip mat with a rough surface, designed to be placed inside a drawer in a kitchen cabinet. The mat prevents objects from sliding when opening and closing the drawer. It protects the bottom of the drawer from water drops, dirt or scratches. The highly anti-slip surface means that loosely arranged kitchen accessories, cutlery, plates or other items always remain in place. It adheres perfectly to the bottom of the furniture, and most importantly, it is easy to keep clean.

available in white, grey, anthracite, black

tray 40-45

The FineLine LiniQ cutlery insert is made of solid oak wood, valued for its exceptional durability and strength. Thanks to specially designed mounting pads, the wooden insert is suitable for all types of kitchen furniture, fitting drawers with a width of 400–450 mm and a depth of 500 mm. The pads feature a precisely angled finish, allowing installation in drawers of any brand or shape. The FineLine LiniQ insert also has no sharp edges, ensuring both safety and a refined appearance.

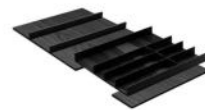

for drawers **400mm-450mm**
finish: **natural oak, black oak**

tray 50-60

The FineLine LiniQ cutlery insert is made of oak wood, valued for its exceptional durability and strength. Thanks to the included mounting pads, the wooden insert is suitable for all types of kitchen furniture, fitting drawers with a width of 500–600 mm and a depth of 500 mm. Additionally, the pads are angled at a specific incline, allowing the insert to be placed in any drawer, regardless of the manufacturer or drawer shape. The FineLine LiniQ insert is also designed with no sharp edges, ensuring both safety and a refined look.

for drawers **500mm- 600mm**
finish: **natural oak, black oak**

tray 80-90

The three-piece FineLine LiniQ cutlery insert, designed for drawers with front widths between 800 and 900 mm, is made of high-quality oak wood, known for its exceptional strength and durability. Thanks to specially designed mounting pads, the insert is suitable for all types of kitchen furniture, fitting drawers with a width of 800–900 mm and a depth of 500 mm. The pads are angled precisely, allowing the insert to be installed in any drawer. For added safety and aesthetic appeal, the FineLine LiniQ insert features no sharp edges.

for drawers **800mm-900mm**
finish: **natural oak, black oak**

tray 100

The three-piece FineLine LiniQ cutlery insert, designed for drawer fronts 1000mm wide, is made of black-stained oak wood, known for its exceptional strength, durability, and water resistance. Thanks to specially designed mounting pads, the wooden insert is compatible with all types of kitchen furniture, fitting drawers with a width of 1000mm and a depth of 500 mm. The pads feature a precisely angled finish, allowing the insert to fit drawers of any brand or shape. The FineLine LiniQ insert also features smooth edges with no sharp corners.

for drawers **1000mm**
finish: **natural oak, black oak**

tray 1

A multifunctional rectangular wooden insert from the FineLine LiniQ range, made of oak wood, known for its exceptional durability and strength. It can serve as a standalone tray for storing small kitchen utensils in a drawer, or as a complementary element to the wooden knife holder or aluminum foil insert. The tray reinforces the sides of individual components and ensures stability of each element.

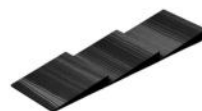

dimensions: **42mm x 150mm x 472mm**
finish: **natural oak, black oak**

tray 2

A wooden cutlery insert from the FineLine LiniQ range, featuring a fixed cross-style divider. Made of high-quality oak wood, known for its exceptional strength and durability. The insert fits into any standard drawer and is designed to hold a 4-piece cutlery set. When combined with other elements from the same line, it creates a unique and organized drawer layout. The insert's width allows multiple units to be placed side by side in a single drawer.

dimensions: **37,5mm x 137mm x 472mm**
finish: **natural oak, black oak**

tray for spices

A profiled wooden set of three inserts from the FineLine LiniQ range, designed to form an ideal spice rack, especially for jars or small boxes. Crafted entirely from oak wood, known for its high durability and exceptional strength. The tray's width allows multiple units to be placed side by side in a single drawer, enabling better organization and accessibility of your spice collection.

dimensions **26mm x 137mm x 472mm**
finish: **dąb naturalny, dąb czarny**

tray 3

oak insert designed for deep drawers with a depth greater than 500 mm and an external drawer front width of up to 1200 mm.

dimensions: **49mm x 600mm x 150mm**
49mm x 1200mm x 150mm
finish: **natural oak, black oak**

box 1

The square box from the FineLine LiniQ line is an organizer made of oak wood. The exceptional durability of the material combined with modern design makes the box a perfect fit for any space. Practical recessed handles on the sides make it easy to carry, making the organizer ideal for any situation. Perfect for organizing small accessories — your drawers will look neat, and everything will have its place.

dimensions: **120mm x 236mm x 236mm**
finish: **natural oak, black oak**

box 2

The rectangular box from the FineLine LiniQ line is a stylish and functional organizer made from high-quality oak wood, known for its exceptional durability and strength. The black finish adds a modern touch, perfectly complementing a variety of interior styles. Equipped with recessed handles on the sides, the box allows for easy carrying and convenient use. It's the ideal solution for storing small accessories that often get lost in drawers - now everything will have its place.

dimensions: **120mm x 236mm x 472mm**
finish: **natural oak, black oak**

plate holder

The plate holder from the Fine Line LiniQ line is made from durable and exceptionally strong oak wood. It features metal accents and plastic feet finishes that prevent it from sliding inside a drawer. Its clever design allows for adjustable spacing, accommodating plates both smaller and larger, up to a maximum diameter of 280 mm. The holder is a great addition for storing loosely arranged plates, not only in drawers but also on shelves.

dimensions: **191mm x 340mm x 180mm**
finish: **natural oak, black oak**

spacer

A spacer element designed for use in drawers with a module up to 1200 mm or smaller (the strip can be cut to the required size at your own discretion). The strip is made of oak wood, which is very durable and strong. The strip is placed inside the drawer, usually at the rear part of the drawer, together with other wooden elements from the FineLine LiniQ line. Thanks to the strip, wooden inserts arranged inside will remain stable at the bottom of the drawer and will not shift when opening and closing the drawer.

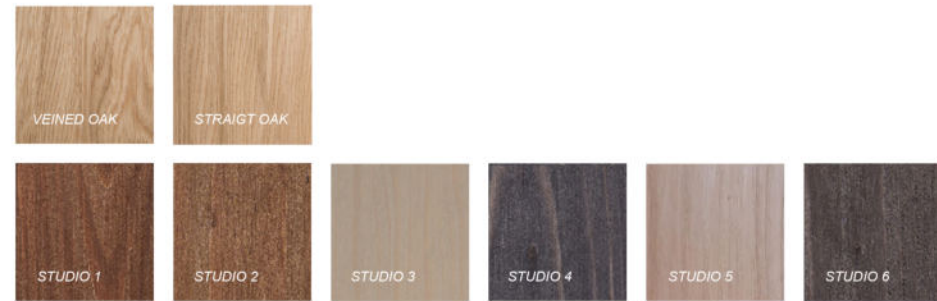

dimensions: **49mm x 7mm x 1200mm**
finish: **natural oak, black oak**

SAWA

materials and finishes

veneered doors and elements/ natural and stained

carcasses/ melamine faced chipboard

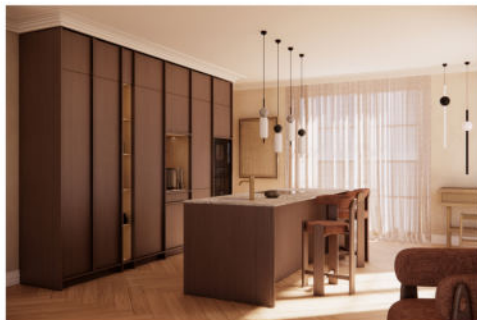

backs/ high density lacquered fibreboard

countertops/ only for "take me home" set

sawa

SAWA is a modern kitchen designed to seamlessly complement open living spaces. Crafted from natural and stained oak veneer with solid wood accents, this model embodies elegance and warmth. Vertical and horizontal elements conceal a subtle handle groove, lending the composition its distinctive character. Every detail is thoughtfully considered, combining technical precision with refined aesthetics. Equipped with self-closing fittings and drawers, and offering a variety of customizable storage solutions, SAWA meets the needs of true enthusiasts of cooking and entertaining alike.

nida

NIDA collection is a warm and authentic take on rustic-style kitchens. The cabinet fronts are finished with knotted, brushed oak veneer, where the natural wood texture and vertical grooves highlight the material's character, adding both depth and dimension. The natural oak tone brings warmth and harmony to the space, creating a cozy, homely atmosphere with a touch of refined elegance. NIDA is perfectly suited to open-plan living — seamlessly connecting the kitchen with the dining or living area, and meeting the expectations of a modern lifestyle.

bardo

A functional, timeless kitchen featuring classic frame-style fronts and full-height, exposed side panels crafted from lacquered MDF. BARDO model draws inspiration from traditional Provençal kitchens, bringing a touch of southern charm into the heart of the home. The matte finish of the fronts gently reflects light, creating a soft, inviting ambiance. Antracite handles and veneered display cabinets, subtly illuminated with diffused lighting, add a refined decorative touch.

BARDO is the perfect kitchen for character-filled homes—spaces where one longs to capture the warm, sunlit atmosphere of the South.

element

ELEMENT collection is a perfect blend of modern design and functionality. It is an ideal choice for both spacious, open-plan interiors and more compact spaces. The furniture has been designed with elegance and simplicity in mind. Lacquered veneer fronts, steel frames, and handles painted in one of the carefully selected colors form a cohesive, harmonious whole, giving the kitchen a unique and timeless character. All elements are made from top-quality materials that meet the latest technical standards. ELEMENT collection is a perfect choice for those seeking a kitchen that combines contemporary design, an industrial edge, and refined elegance.

malva

This exceptional kitchen is a refined blend of nostalgia and contemporary elegance. The design draws inspiration from mid-century aesthetics — evoking the charm of 1950s kitchens and classic Vichy tiles — while being fully reinterpreted through a modern lens. A handleless opening system, softly rounded lines, matte finishes and high-quality materials come together to create a space that is both understated and highly functional. This kitchen was designed for those who appreciate refined simplicity, artisanal details, and impeccable craftsmanship. A perfect choice for admirers of modern minimalism with a nostalgic twist.

night & day

is the ideal choice for those who appreciate the artistry behind finely crafted cabinetry with framed fronts and delicately milled handles, as well as for those who embrace bold, expressive design. At first glance, the classic form of the cabinets harmonizes effortlessly with the arched contours of the island, the striking black-and-white pattern of the reimagined veneer, and the subtle veining of marble. Wooden accessories add warmth and depth, completing this distinctive composition. A masterclass in balance and material harmony. Night & Day is a kitchen designed both for quiet moments—like savoring a glass of red wine at day's end—and for invigorating beginnings, where bold design inspires a fresh start each morning.
